“ I worked with Jay here in Nashville. He had a song for every phrase you say and he would play it on his phone. He often starts his day with Jimi Hendrix Red House and would sing along with it and laugh. I only could remember the last line, so when he passed I googled it, and now I know why. I would start the song her name is Lola, she was a show girl. That's as far as I could go, but Jay would finish the whole song and that's the only time I found out the whole story of that song. He would stand up to sing the part "but who shot who". Everyday was just fun with Jay. His empty desk in front of me...unbelievable. He would share anything he had, phone charger, eyeglass lens cleanser. Most often we laughed so hard we would be hushed. The stress of work just melted away. He was never religious but he had the heart of a child of God and God only looks at the heart. I have this hope to see him again at another time, another place and we would sing the Copa cabana. By then I would know the full lyrics.

“ Dr Jay was one of the most caring doctors I have ever seen. He treated the person and never judged his patients, instead he seemed to understand what they was going through. I only saw him for a year but in that year, we got to know a lot about each other. He and I both had a love of dogs and shared our stories of them and our grief when he lost his and I lost mine. The world lost an amazing man and the medical community lost an amazing doctor. My heart goes out to his family and I wanted them to know that he was truly loved by all that knew him.

“ I've had the pleasure of knowing Jay since 7th Grade. Through junior high and high school, Jay always seemed to have his seat right behind me. Jay made classes like Mrs. Jone's senior history class a blast. I would be stifling the giggles and by the end of class, my stomach would hurt. We had the exact same humor. It really was no surprise when my little sister started dating Jay's little brother. Throughout all of these years, the Stubblefield family and the Johnson family became family. I was so excited when Corey and Michele married because not only was Corey now my brother, but I considered Jay my brother, as well as feeling the same way about the rest of his family. Whenever you saw Jay again, no matter how many years go by, it was like you just saw him yesterday. I will always have the fondest memories of Jay. Any time I think of him, it will always be with the biggest smile on my face. Rest well my friend. My deepest sympathy to the Stubblefield family. I love you all...

“ I am deeply saddened to hear of Jay's passing. He was one of my oldest friends having grown up with him, Dan and Janet, Mark, the Marion's, Pat McGovern, the Ballones, and Michelle Burgoyne. A couple of years later the gang included Sal, John and Mike, Ron, Andy, and a ton of others. That neighborhood was a crucible of goodness, friendship, and love. I remember us all riding our bikes playing Battlestar Galactica, we would play with our matchbox cars on the great trainset his Dad built. Summer of 77 or 78 was spent playing Star wars every day having built a Millenium Falcon cockpit in the crawl space. Jay could climb the tree in Danny's yard waiting for the school bus higher than anyone else. He somehow would be the first one to the ground as well. He had an incredible set of guts considering he dismantled the engine in his 68 mustang and then rebuilt it. Mind you, this was before the internet and Jay did not know how other than reading it in a magazine. He hosted some of the best parties EVER! He was a good friend and a treasured part of my childhood. My deepest condolences to his wife and daughter and to Mr. And Mrs Stubblefield, Corey, Kristen, and Kira. I will keep Jay in my prayers
