Thank you so much for your sweet message and voicemail. I love hearing stuff about my Mom. It fills the hole for a second. It's crazy to think she was down there for so long. I wish we had gotten more than 4 months of her back of here, but at least we spent every single day with her. Thank you for being her friend!!

Thank you for posting this about my mom. I'm sure no one knew this about her, but her nickname or CB handle, for those that know what that is, was "Sunshine" and it's a shame I'm the one that didn't realize or appreciate why. She is definitely missed.

“ I am so sorry to learn of the passing of Dr. Craig. She was a great member of West Coast University and helped me with many projects I was working on. I remember the day that she told us she was retiring and I was set back. As the evening and weekend Dean she was always in the office and I spoke to her many times and even had her come to my classes to speak to my students. She was a wealth of knowledge for students and will be greatly missed. Love to the family at this time.
