“ *Jim was like a father the moment I met him at Ft. Knox,KY. He was proud of his country, his uniform and his troops. He was not affraid to say it. He opened up his skills from Vietnam And his home to the troops he was close to. I am very fortunate to have spent time with him within the last month and thank him for all the respect and guidance he Offered. To many things to say but to sum up my friend he had a big heart and he always gave 110%.*
