“ Denman Junior High School is very appreciative of the time that he volunteered to support Denman . He was always willing to build floats, build structures for our Christmas Around the World displays. He was truly family. He was a very giving, loving, and kind man. Mr. Brown gave his time and talents to support the vision of the school (where his wife works). And, we greatly appreciate him and his family.

“ One of my fondest memories of my husband was his ability to make every moment feel special, no matter how ordinary the day seemed. Whether we were taking a simple walk through the thrift store or traveling to our next vacation trip, he had a way of filling the space with warmth and love. His laughter was contagious, and his heart was always open to those around him. I will forever cherish the countless little moments, where he showed me how beautiful life could be when shared with someone you love deeply. His presence brought light into my life, and that light will stay with me always. I love you always
