“ *I am Tammy, Marks Sister-In-Law. Mark was living with us. I got badly hurt one night. I fell in the storage building. I couldn't move. I busted everything, blood everywhere. Danny was asleep. Mark was outside. I couldn't move. He heard me crying. He came, picked me up and took me inside. He calmed me. Took care of my wounds and I couldn't move for 3 days. He was very concerned. Very protective and seemed very worried. He wouldn't let Danny take care of me. He nursed my wounds, waited on me for my every need. It hurt to move and I would scream out. I eventually had lots of bruises. I slept a lot. What I remember most about that? Mark wouldn't go anywhere when his friends came or called to go out. He told them I was the most important thing & he was not leaving my side till he knew I was better. Every time I woke, he was in the chair by me, always with a loving smile & asking how I felt and what I needed. I know a person like that, has to be an angel in heaven, who got their wings! Mark was my hero! My knight in shining armor! You never know who you will need in your life , so live life needing your loved ones everyday, not thinking they need you only. Jesus ,brought Mark & gave his feeble body strength to carry me in. I'll never forget that memory.*
