“ *Beautiful woman, caring friend, loving mother... I met you through your sister Mone & a friendship was created. You listened with your heart and always showed concern. Hearing of your loss was and is still hard to bear at times. You gave birth to three awesome kids and they will always be loved and watched over. Heaven has got an amazing person on their team. Love you always sister Na.*

Amy Thongmalasy - August 16, 2010 at 11:33 PM

“ *We never met Na, but we have known her husband for many years. We want to tell you Robert, that we send our condolences and our prayers for you and your children. Na must have been a very special gal.
God Bless you and your family.*

“ Na,

Today I sit here thinking about all of the wonderful memories that I have. The stories that we shared. The love that you have for your beautiful children and my brother. You were always so generous and caring. I will miss hearing all of the awesome stories about your childhood in Lous and the experiences that you had before coming to the U.S. I will always be here for your family and I know that you are watching over them as well as everyone else. I know that you are in a better place and pain free! I love you!

Thank you for naming your beautiful little girl after me...I couldn't be more proud!

Love always!
