“ *In dedication to your life, your many words of wisdom for your children, the time you gave helping others as a nurse, your love and kind smile will be greatly missed.*

*When we were children, we were finishing each others thoughts and sentences. We were very close. Where I went you always followed. I watched over and protected you the best I could. We had so much fun playing kick the can, tether ball, doing gymnastics, playing in the creek, riding our bikes, horses and motorcycles. It breaks my heart, as adults, our lives took different directions. I miss "us". You're sadly missed by all who loved you. We all want positive memories of our lives, and we do have many positive memories of you that will carry on.*

Tammy Brimm - June 13, 2013 at 01:37 AM

“ *Shelly, you will always be in my heart and never ever forgotten.*

*Love you dearly.*

*Aunt Nancy*
