“ I had the pleasure of working with Steve at SunHealth for ten years. He was a friend and a colleague at a special company. We had regular interaction during those years, and I valued his knowledge and judgment in the medical equipment field. And, he was "quite a sight" on his bike!! We have been emailing each other regularly over the past few years as he faced his health issues. I enjoyed our "chats" and had posted his name on several prayer boards. I will miss Steve, but I know that he was a man of faith, and that he is celebrating eternal life right now. May the Peace of Christ be with Becky and the children.

“ I was truly shocked by the news of Steve's passing. Although I had the privilege of working for him for only a few years at Aramark CTS, I had known and exchanged ideas with him for many years. During all this time, he was not only knowledgeable but very compassionate. He treated everyone with respect, even those who did not agree with him. I do remember him taking his son to California from NC and returning on his motorcycle alone. We lost touch after he left Aramark and Sodexo, and I moved from NC to NV. But I will always remember him as a kind, generous soul with a contagious smile. Rest in peace, Steve. My sincere condolences to the family.
