“ My Aunt Susan was the most beautiful soul! I love her and miss her very much. She was a wonderful aunt and great aunt to my son Jack, her great nephew. She would visit and spend the night with us at my parent’s house from time to time. One of my fondest memories of her is spending time with Jack in Daddy’s Man Cave. Jack liked to build things out of random materials daddy had. On one occasion when Aunt Susan was visiting, Jack was about 4, they built a spaceship out of chairs and cardboard boxes. Aunt Susan put his baseball helmet on, started bouncing around acting like she was going to outer space. Jack got so tickled. Her light hearted fun spirit, love of family, sweets, and scratch offs will forever remain in my heart.
