“ Son, not a moment goes by that I don't miss you, everytime I close my eyes I see that smile and then dimples and you holding that helmet getting into the uber, and I hear the words "I love you mom I will be back soon". How am I supposed to carry on in life knowing you will not be coming home? There's no way manual to do this, there's no YouTube video to instruct me along the way. I walked in Kroger and seen the Oreo cookies and instantly started 😭 crying. I am so thankful for Jazzy you will be seen through her but it is not the same. She needed you for life son. Please watch over those of us who you know are truly effected by your passing, please try and comfort us through these days of sadness. I would have given my life for his J.R. if I was given the chance. I love you so much and I am no longer angry J.R. ❤️
